

## AIRCRAFT MAINTENANCE PLANNING

### PROGRAMME REFERENCE:

AMP

### PROGRAMME PRE-REQUISITES:

A good engineering background.

### PROGRAMME SYNOPSIS:

This professional development training programme is designed to equip participants with the fundamental knowledge and skills necessary to effectively and efficiently carryout aircraft maintenance planning activities within an airline or independent CAMO. The programme includes a number of case studies and activities to facilitate practical understanding and competence development.

### KEY TOPICS:

-  Fundamentals of Continuing Airworthiness
-  Maintenance Requirements & MPD
-  Maintenance Forecasting & Cost Estimation
-  Maintenance Work Order
-  Liaison with AMO & Other Stakeholders
-  Maintenance Work Verification
-  Dealing with Maintenance Planning Issues

### BENEFITS OF ATTENDING:

By the end of the programme, participants will be able to:

1. Explain what continuing airworthiness entails in practical terms.
2. Carryout fleet maintenance forecasting and cost estimation.

3. Evaluate the scheduled and unscheduled maintenance task requirements of a given aircraft including ADs, SBs/Mods, and defects.
4. Prepare a work order and engage with AMOs and other stakeholders for its completion, and subsequently carryout a work verification.
5. Deal with maintenance planning issues without compromising safety.

### PROGRAMME DURATION:

2 Day - 12 Training Hours

### PROGRAMME AVAILABILITY:

**SCHEDULED (PHYSICAL CLASSROOM):** Check [here](#)

**IN-COMPANY:** Available - Standard & Tailored

**ONLINE:** Available - View options [here](#)

### PROGRAMME FEE:

**SCHEDULED (PHYSICAL CLASSROOM):** Check [here](#)

**IN-COMPANY:** Please [contact us](#) for a quote

**ONLINE:** Please [click here](#) for details

### WHO SHOULD ATTEND?

Maintenance planners, fleet managers, and other technical personnel involved with aircraft maintenance planning activities within an airline or CAMO. In particular, the programme is suitable for personnel who are new to the subject matter, or are already familiar with the fundamentals of the subject but require formal training to improve their knowledge and practical skill set.
